

# Artur Babiński

## Electronics Technician

### Personal Info

**Date of birth**  
1996-06-09

**Email**  
artur.babinski.g@gmail.com

**Phone**  
730260290

**GitHub**  
github.com/quenrythane/

**LinkedIn**  
www.linkedin.com/in/artur-babinski

### Skills

Python, Git, MySQL

Reading technical documentation

Knowledge of Windows and Linux (running an Ubuntu server on AWS EC2)

Very well knowledge of the construction and operation of computers

Logical and analytical thinking

Being a team player

Communication Skills

Effectively obtain information in order to solve the encountered problems

Eagerness to learn and constantly improve yourself

Inquisitiveness, perceptiveness

MS Office: especially Excel

### Languages

Polish - native

English - B2

### Hobby

Programming, Artificial Intelligence, Data Science, Electronics, Robotics, Cyber-Security, Web3

Business Psychology, Behavioral Psychology, Cognitive Science

I am a person who is fascinated by technological achievements, especially robotics and artificial intelligence solutions.

I love to get to know and learn about how technical solutions work and what I can do with them. That is why I started to be interested in and explore the secrets of electronics, and then programming. The results of my experience give me visible and tangible results, which motivate me even more to work.

### Work History

2021-10 - 2022-01	<b>AV systems fitter</b> <i>Image Recording Solutions Pomorze Sp. z o.o., Gdańsk</i>  Implementation of audiovisual systems in the famous Dom Zdrojowy Gdańsk Hevelianum: Installation of drop-down screens, projectors, 100-inch interactive monitors, control panels, wall-mounted speakers and overhead ceiling speakers.
